

## HORIZONTAL GLASS WASHING/DRYING MACHINE ➤

Our Stainless Steel Professional Horizontal Glass Washing Machines are operating in hundreds of glass factories who require high cleanliness of glass for packing and delivery, or for the preparation of tempering, laminating and coating. The PID-HW-1200 removes Heavy spots and stains easily.

The whole process is Automatic, Glass is loaded onto the 'Loading Rollers' the glass then passes through the 'Brush Rollers' then 'Sponge Rollers' then 'Heating Elements' then out onto the 'Exit Rollers'. The glass comes out Clean and Dry ready for immediate Delivery to site or Tempering. Stainless Steel Components ensure that this machine will last many hassle free years.
